FOR IMMEDIATE RELEASE:

**DNAPRINT GENOMICS TO PRESENT AT THE WALL STREET
ANALYST FORUM'S BIOTECHNOLOGY/SPECIAL
PHARMACEUTICALS CONFERENCE**

SARASOTA, Fla., Sept. 13, 2007 – DNAPrint Genomics, Inc. (OTCBB: DNAG) today announced that Chief Executive Officer and President Richard Gabriel will present an overview of the Company to analysts at the 18th Annual Wall Street Analyst Forum's Biotechnology/Special Pharmaceuticals Conference on Thursday, Sept. 20, 2007 at 2:00 p.m. Eastern time. The conference will be held at The Princeton Club, 15 West 43rd Street in New York City.

During the 40-minute presentation, which can also be heard via a live webcast at <http://www.wsw.com/webcast/wsaf4/dnag.ob> or on the Company's website at www.dnaint.com, Mr. Gabriel will provide an overview of the Company and discuss its goals and outlook for the future. The webcast will also be archived.

About DNAPrint Genomics, Inc.

DNAPrint Genomics, Inc. (www.dnaint.com) is a developer of genomics-based products and services in two primary markets: biomedical and forensics. DNAPrint Pharmaceuticals, Inc., a wholly owned subsidiary, develops diagnostic tests and theranostic products (drug/test combinations) using the Company's proprietary ancestry-informed genetic marker studies combined with proprietary computational modeling technology. Computational Biology and Pharmacogenomics services are also offered externally to biopharmaceutical companies. The Company's first theranostic product is PT-401, a "Super EPO" (erythropoietin) dimer protein drug for treatment of anemia in renal dialysis patients (with end stage renal disease). Preclinical and clinical development of all the Company's drug candidates will benefit from simulated pre-trials to design actual trials better and are targeted to patients with genetic profiles indicating their propensity to have the best clinical responses. DNAPrint is proud of its continued dedication to developing and supplying new technological advances in law enforcement and consumer ancestry heritage interests. Please refer to www.dnaint.com for information on law enforcement and consumer applications which include DNAWITNESS^(TM), RETINOME^(TM), ANCESTRYbyDNA^(TM) and EURO-DNA^(TM). DNAWitness-Y and DNAWitness-Mito are two tests offered by the Company. The results from these tests may be used as identification tools when a DNA sample is deteriorated or compromised or other DNA testing fails to yield acceptable results.
